

Equip Yourself for Success in 2018: Sign Up for Training & Development Skills Workshops in a city near You!

2018 Course Calendar

Do you have more than 5 participants? Ask about our private workshops!

Save on travel costs for your large group, and have a CCAA-certified instructor come to your organization anywhere in Canada. Our instructor will deliver course material specially tailored to meet your organization's requirements, at a date/time and location of your choice anywhere in Canada. We offer group discounts and other incentives!

QUALITY SYSTEMS AUDITOR (2 DAYS)

This workshop provides a comprehensive overview of the steps involved in the audit process. Upon completion of this workshop, participants will have a sound understanding of the auditing process which is a key part of a Quality Assurance and Safety Management System and its importance in enhancing operational safety and improving operational performance.

QUALITY ASSURANCE MANAGER (1 DAY)

This workshop was developed to prepare participants for Transport Canada expectations in accordance with established Occupational Standards. It provides a comprehensive overview of the role and responsibilities of the Quality Assurance Manager. Upon completion of this course, participants will have a sound understanding of the fundamentals of the quality processes and procedures, and key responsibilities of a Quality Assurance Manager.

CORRECTIVE ACTION PLANS (1 DAY)

This workshop enables participants to develop meaningful and appropriate corrective action plans. Upon the successful completion of this workshop, participants will possess a thorough understanding of how to interpret findings, develop corrective actions, determine root causes and develop preventative actions.

HUMAN FACTORS CLASSROOM WORKSHOP (1-DAY)

This workshop meets the requirements of Canadian Aviation Regulations (CARs) and provides participants with an understanding and awareness of the human factors that can potentially lead to errors. Upon completion, participants will have a sound understanding of the relationship between human factors and safety management and receive a certificate of completion valid for 3 years.

COMPANY AVIATION SAFETY OFFICER (1 DAY)

This workshop will be beneficial to participants carrying out the responsibilities of the safety officers and managers, as it meets the requirements of CAR's 705.153, 573.06(8) 302.505. It will also be of interest to operations managers who require the Company Aviation Safety Officer's (CASO) course to meet the requirements of CAR's 723.07. Participants will benefit from a deeper understanding of the various aspects of safety management systems including how to better develop, manage and assess effective safety management within their operations.

PERSON RESPONSIBLE FOR MAINTENANCE CONTROL (1 DAY)

This workshop provides participants with a comprehensive overview of the regulatory requirements for the Person Responsible for Maintenance Control System role and the responsibilities in this position. This will help individuals to remain compliant with regulatory and company requirements, successfully complete Transport Canada's written and oral tests, and increase awareness of the key elements required for quality and safety.

ACCIDENT / INCIDENT INVESTIGATION (by the LOOMEX Group)

This workshop, presented in collaboration with The Loomex Group, is designed to provide participants with the fundamental knowledge and skills to assist in or conduct a general accident/incident investigation. It identifies the basic step-by-step procedure for approaching the scene and performing the investigation. Participants are immersed in a mock accident/incident investigation and the objectives are tested by practical demonstration and the preparation of a simple accident report.
